Sentiment Analysis

Topic Analysis

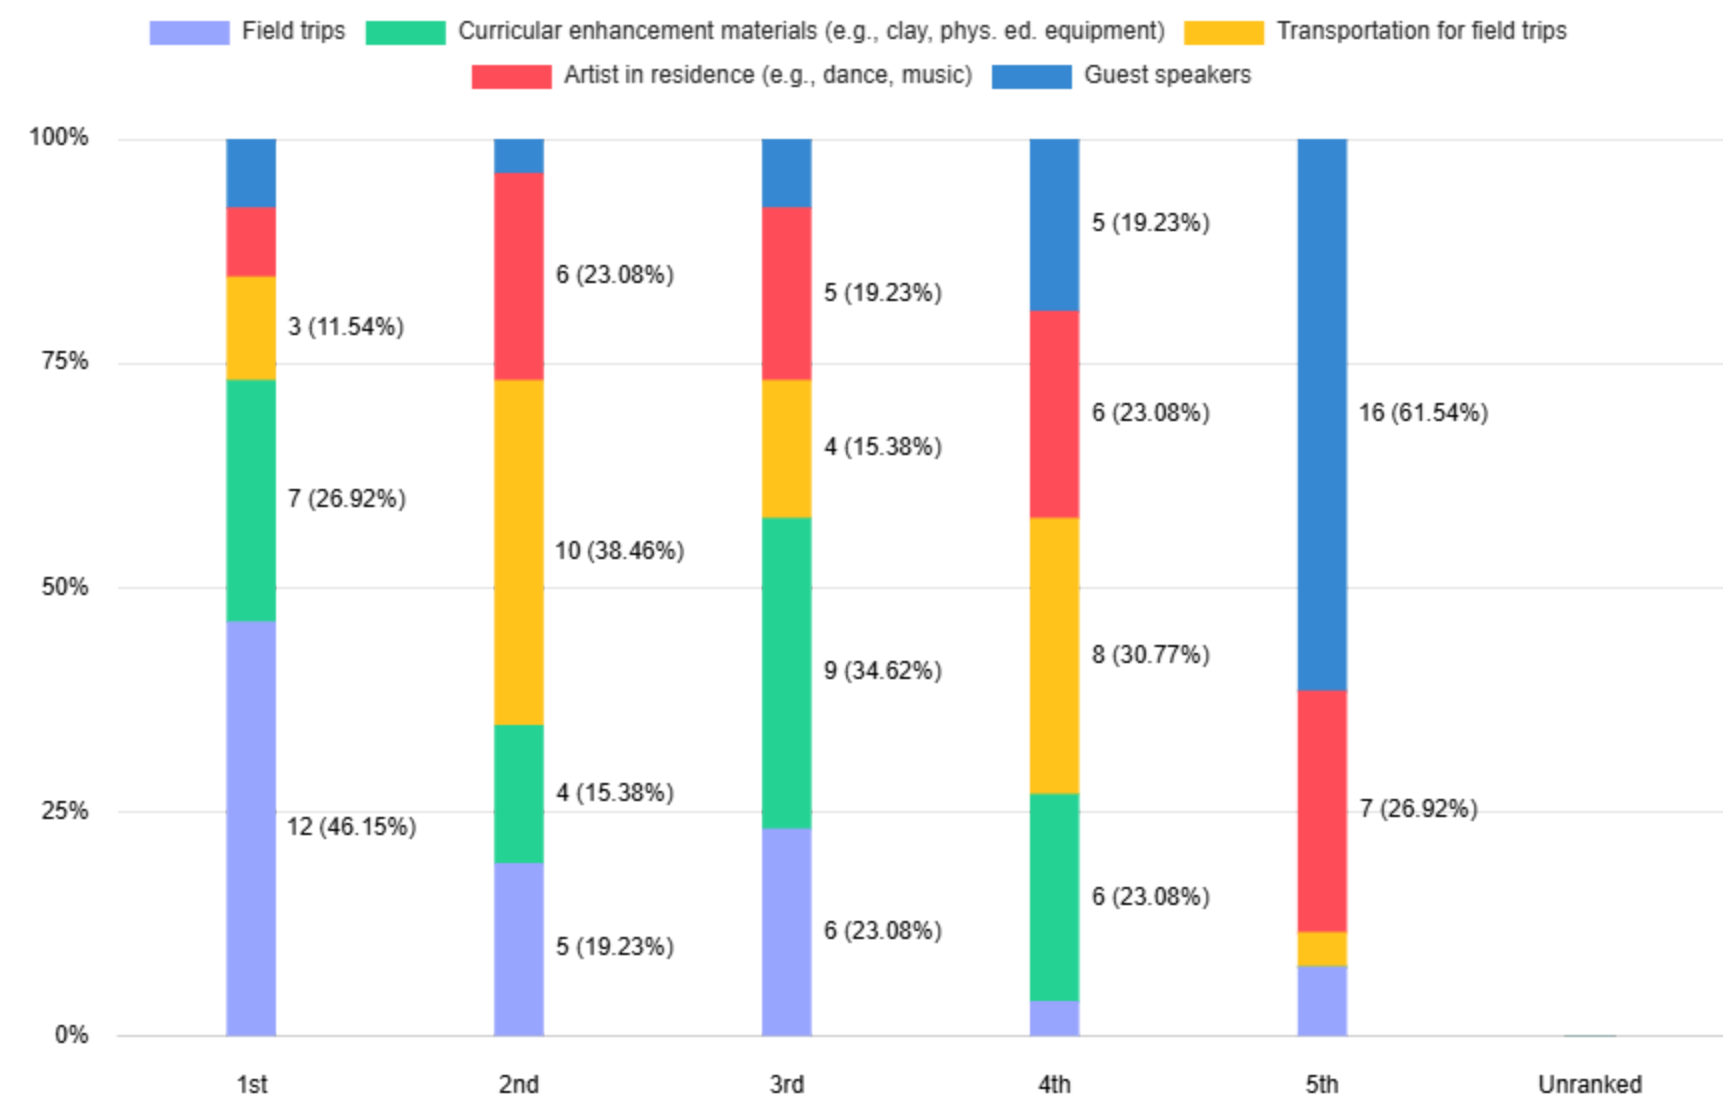

The amount of learning in hours is steadily declining. There is currently no homework or ability to get additional work to support the learning of my children. Spending the already decreased time and sending no additional materials is similar to feeding a horse the same amount at the same increments knowing it does not have enough to thrive. Students are not getting enough learning time, and do not have the material to take learning home. Shared librarians, not having gym daily and the additional time off for students does not appear to be changing in this plan.

Schools must operate within their budget and too many fees can be unmanageable for families. Knowing that, please rank the following activities and services in order of importance to you.

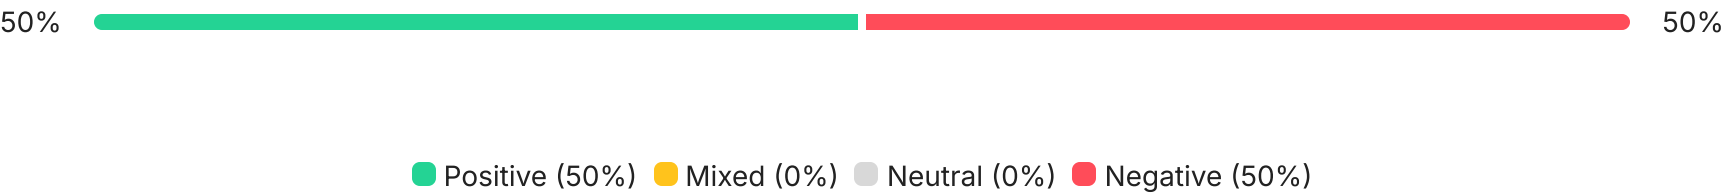

Please select your level of agreement with the following statements:

Please share any other thoughts you may have about our school budget and fees.

Sentiment Analysis

Topic Analysis

- Kids need more out of school field trips as I feel the in school ones we have had are pointless.
- Parents should NOT be paying \$80 a month for lunch supervision!! Schools are responsible for child supervision from open to close!!!
- School fee are increasing drastically yearly and is becoming more difficult for parents to keep it.
- would like to see more field trips and guest speaker or guest activities
- School fee's should be eliminated and the Government of Alberta should bring education funding up to par with the other Provinces.
- The school needs more support financially, it is our belief that Acadia is doing its absolute best for our students.
